

Statement of Purpose (S.O.P.)

INTRODUCTION:

I am Soham.Mukesh.Shetty, currently pursuing engineering in Artificial Intelligence and data science (D11AD). This is my statement of purpose for joining the TE council of AI CoLegion .

- **Why do I want to be a part of AI CoLegion?**

I'm interested in joining the club ,firstly because its affiliated to my course and career , also i have a deep interest in AI . Secondly because I have been a part of AI CoLegion and seen it build from scratch , so i would be happy to be a part the club again as it has been a great experience being in it .

- **Why should AI CoLegion consider me?**

I have been a great asset to this club as junior graphic officer , Also i have been taking part in the PR and organizing duties , and have contributed a lot to the club .I have always been very keen to learn new things and always given my best for any participation I take in . I have been good in organizing and managing events for this club . Already made good bonds with the club members and know the in and out of it
